- The Giving Plate

TOTAL: 19,555 pounds of beef, which equals, 78,220 meals.

#### Quote:

**“Food banks rarely receive adequate protein sources for their clients. The hamburger we provide is fresh-from-the-butcher and includes every premium cut from the entire cow. USDA-certified Butcher Boys in Prineville has been an incredible partner over the years, and they gave us additional butcher appointments to help more food-insecure families during the first months of COVID-19.”**
